### **US Liner Company Named Pittsburgh Tech 50 Awards Finalist**

*Pittsburgh Technology Council to Name Winners on Oct. 29, 2015*

**CRANBERRY TOWNSHIP., PA** – US Liner Company (USLCO), today announced that the Pittsburgh Technology Council has named it a Tech 50 Awards Finalist in the Manufacturing Category.

Since 1997, the Pittsburgh Technology Council's annual Tech 50 Awards recognize southwestern Pennsylvania's most successful, innovative, and thought-leading technology companies, which have become the backbone of Pittsburgh's new economy.

The awards represent transformative technology centers of excellence with tech companies at all stages of growth. Tech 50 also recognizes the region's top tech executive.

"Each year, the Council canvasses the region for the most distinguished public and private technology-oriented companies, and the Tech 50 awards honor those companies that demonstrated the strongest growth and advancement in product or sales success, financial strength, corporate citizenship, job growth and retention and innovative product or technology," said Audrey Russo, President and CEO, Pittsburgh Technology Council. "We are excited to announce the category winners at the awards gala this fall. It is truly a night to celebrate our region's technology companies and the contributions they have made to our economic vitality."

US Liner Company President Michael C. LaRocco comments that "it is an honor to be chosen as a finalist for the Tech 50 Awards. Considering all the outstanding local manufacturing companies in our region, we are thrilled for our company and employees."

Tech 50 winners will be announced on October 29, 2015 at the Wyndham Grand Pittsburgh.
